

Canada-Postal Code Zone Chart

How to Calculate Your Shipping Rate

Using the destination postal code of the shipment you are sending, determine the corresponding zone using the chart below. Then go to the 'CanadaRate Guide' and find the zone number which you identified on this zone chart. Then look up the line under that zone number which corresponds to the total weight of the shipment to determine the correct price. This price is for shipping charges only and does not include applicable taxes, surcharges or any other charges that may apply.

Postal Code	Zone	Postal Code	Zone	Postal Code	Zone
Newfoundland
